EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Finkelstein on June 30, 2004. The amendment was agreed upon to clarify the nature of the images, to be in line with applicant's remarks and disclosure, and to highlight the object and novel aspect of the invention that allows operator viewing of actual mass placement at the target location on the acquired image of wheel.

The application has been amended as follows:

In Claim 1, before the period at the end of the claim, the following clause has been added:

--wherein the means to acquire images will also acquire an image of the balancing mass as it is moved to its point of application, and the display means will display the image of the mass on the image of the application surface and optical sign.--.
